Planning and Assessment

Strategic planning, alignment of goals - business metrics baseline, deployment of resources with Professional Services Consultant

Training

Provide comprehensive training for IT teams on how to use Sangfor products and integrate them into their daily operations.

Implementation

Sangfor Implementation with Professional Services

Managed Services

24/7 Managed Services help customers with proactive monitoring, incident response, and ongoing optimization of their Sangfor environment.

Why choose
GS Catalyst
to deliver
Sangfor?

Implementation & Migration Services

Smooth implementation process and migration from existing systems.

More than 50+ Certified Engineers

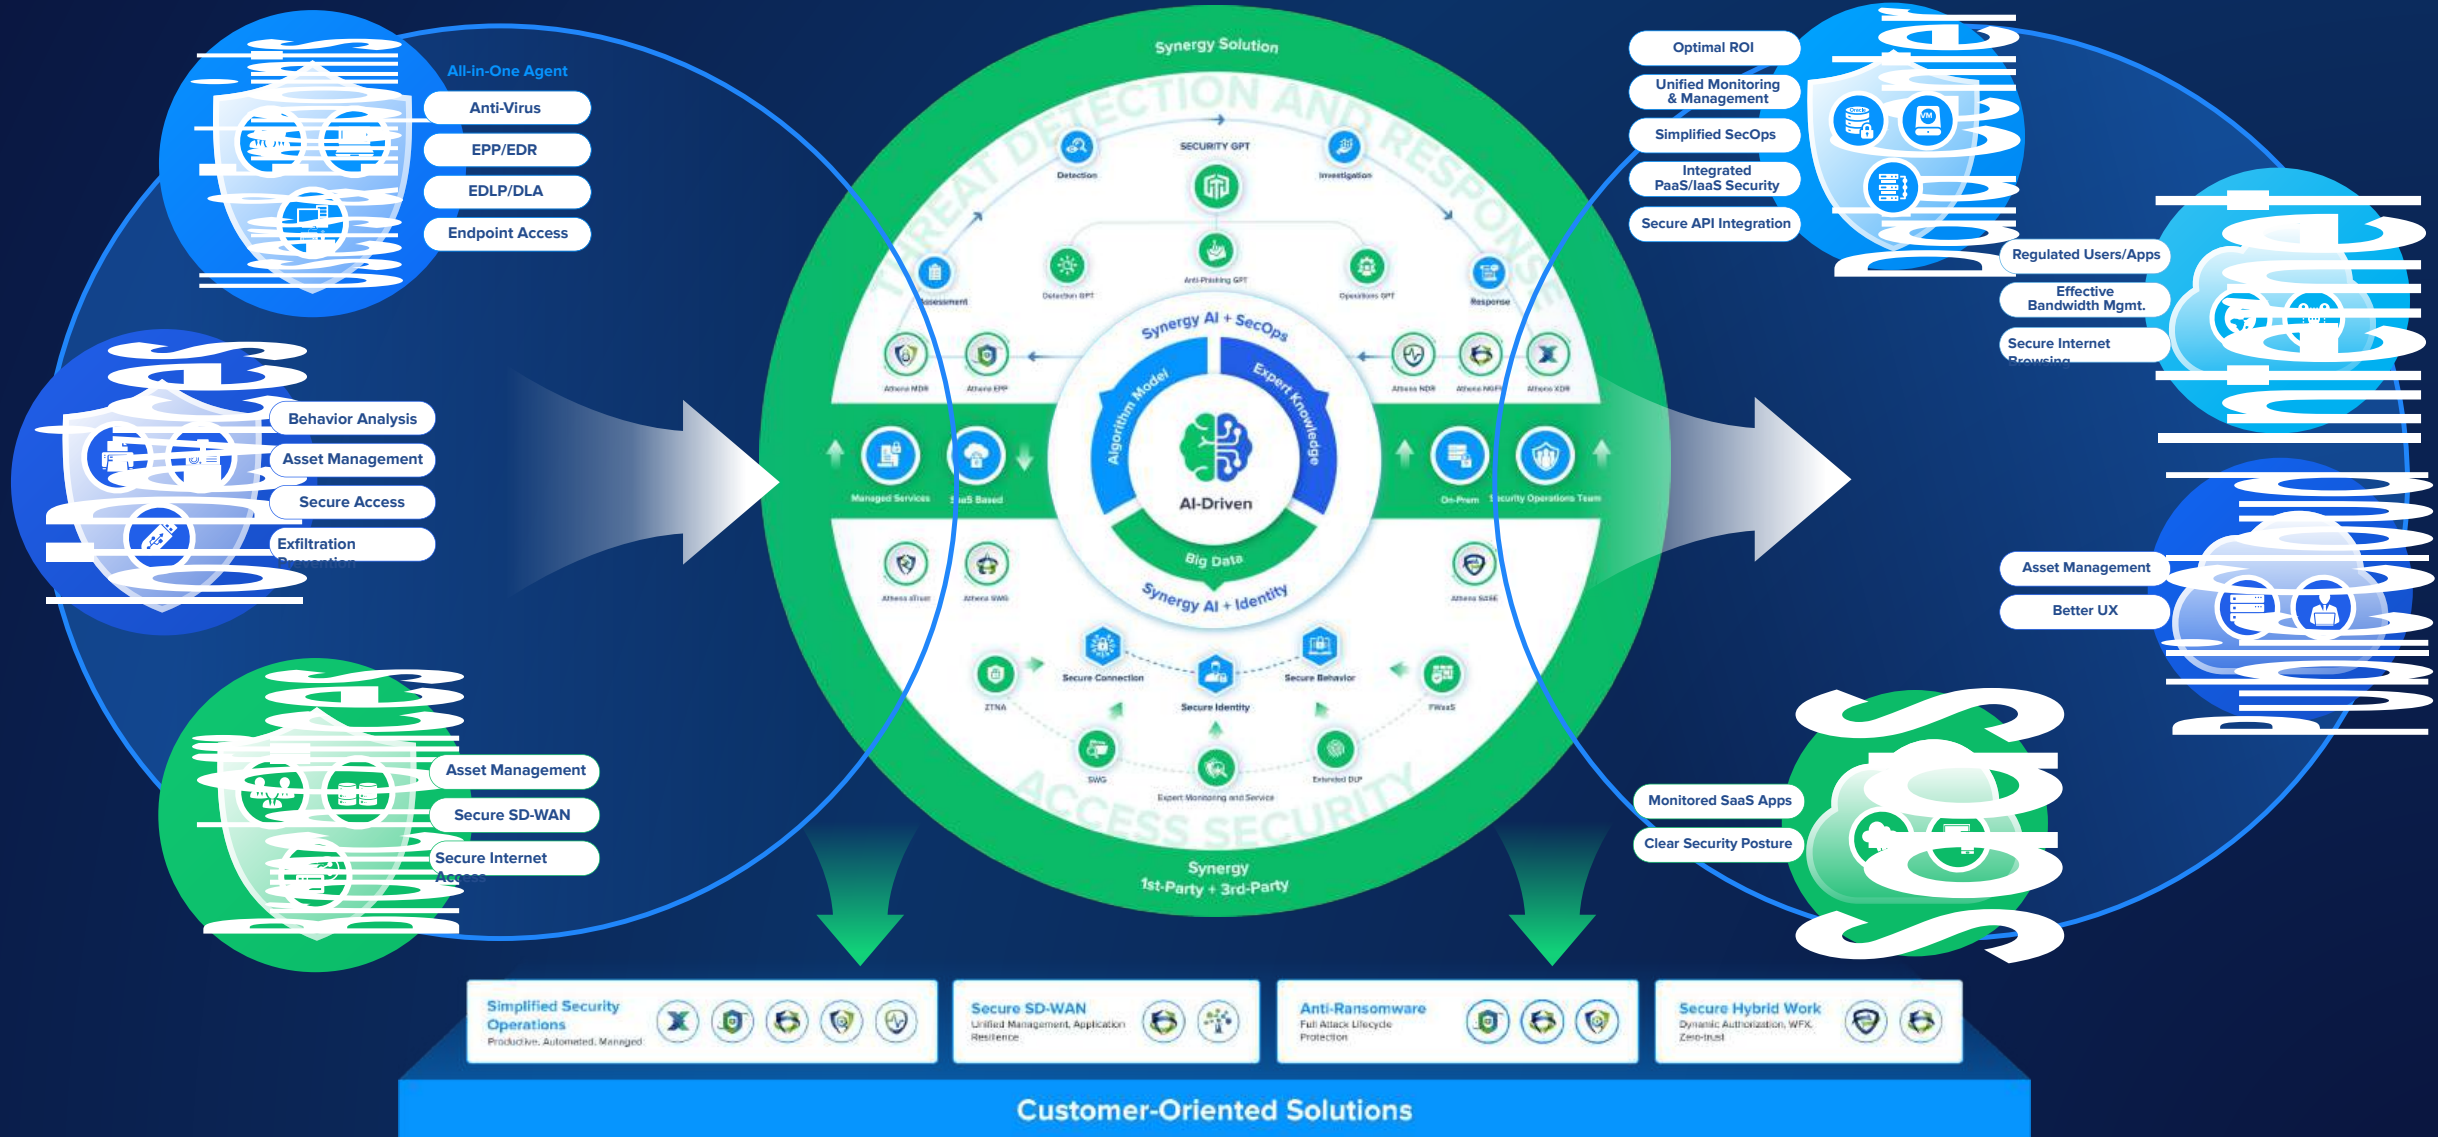

Our team of certified engineers brings deep knowledge to manage your directory services

Have Strong Portfolio for Cloud Solution

Designed from the ground up for the cloud, we deliver optimal performance and scalability.

Sangfor's Key Differentiation - SynergyAI

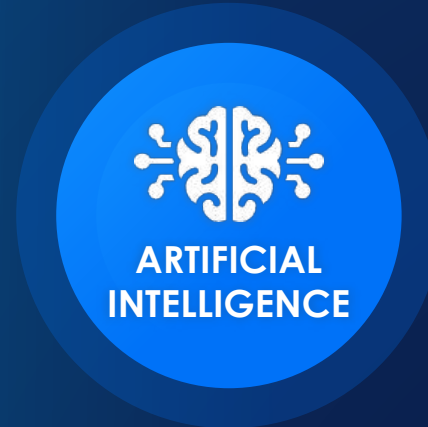

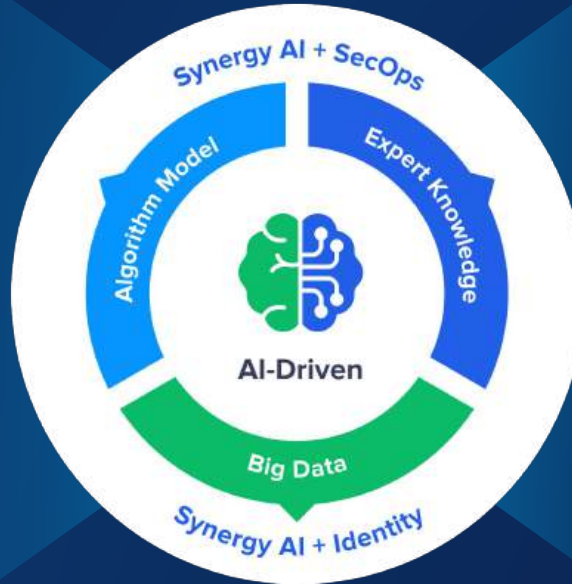

SYNERGY AND AI AT OUR CORE

To ensure the best user experience, whether it's security capability or technology usability

To make technology adoption simpler and more convenient

To adopt the latest advanced technologies to simplify security

To enhance security operations efficiency and minimize resource challenges

Sangfor Athena Foundation

Athena NGFW
Smarter AI-Powered Perimeter Defense

Athena EPP
The Future of Endpoint Security

Athena SWG
Secure User Internet Behavior

Athena NDR
Intelligent Threat Detection and Response Platform

Sangfor Athena Security Operations

Athena XDR
AI-powered Unified SecOps Platform

Athena MDR
The Cyber Guardian of Your Business

Sangfor Athena Cloud Security

Athena SASE
The Smarter, Simpler, and More Secure Way to Connect

Security Solutions

Simplified Security Operations
Run Full-fledged SecOps Minus the Complexity

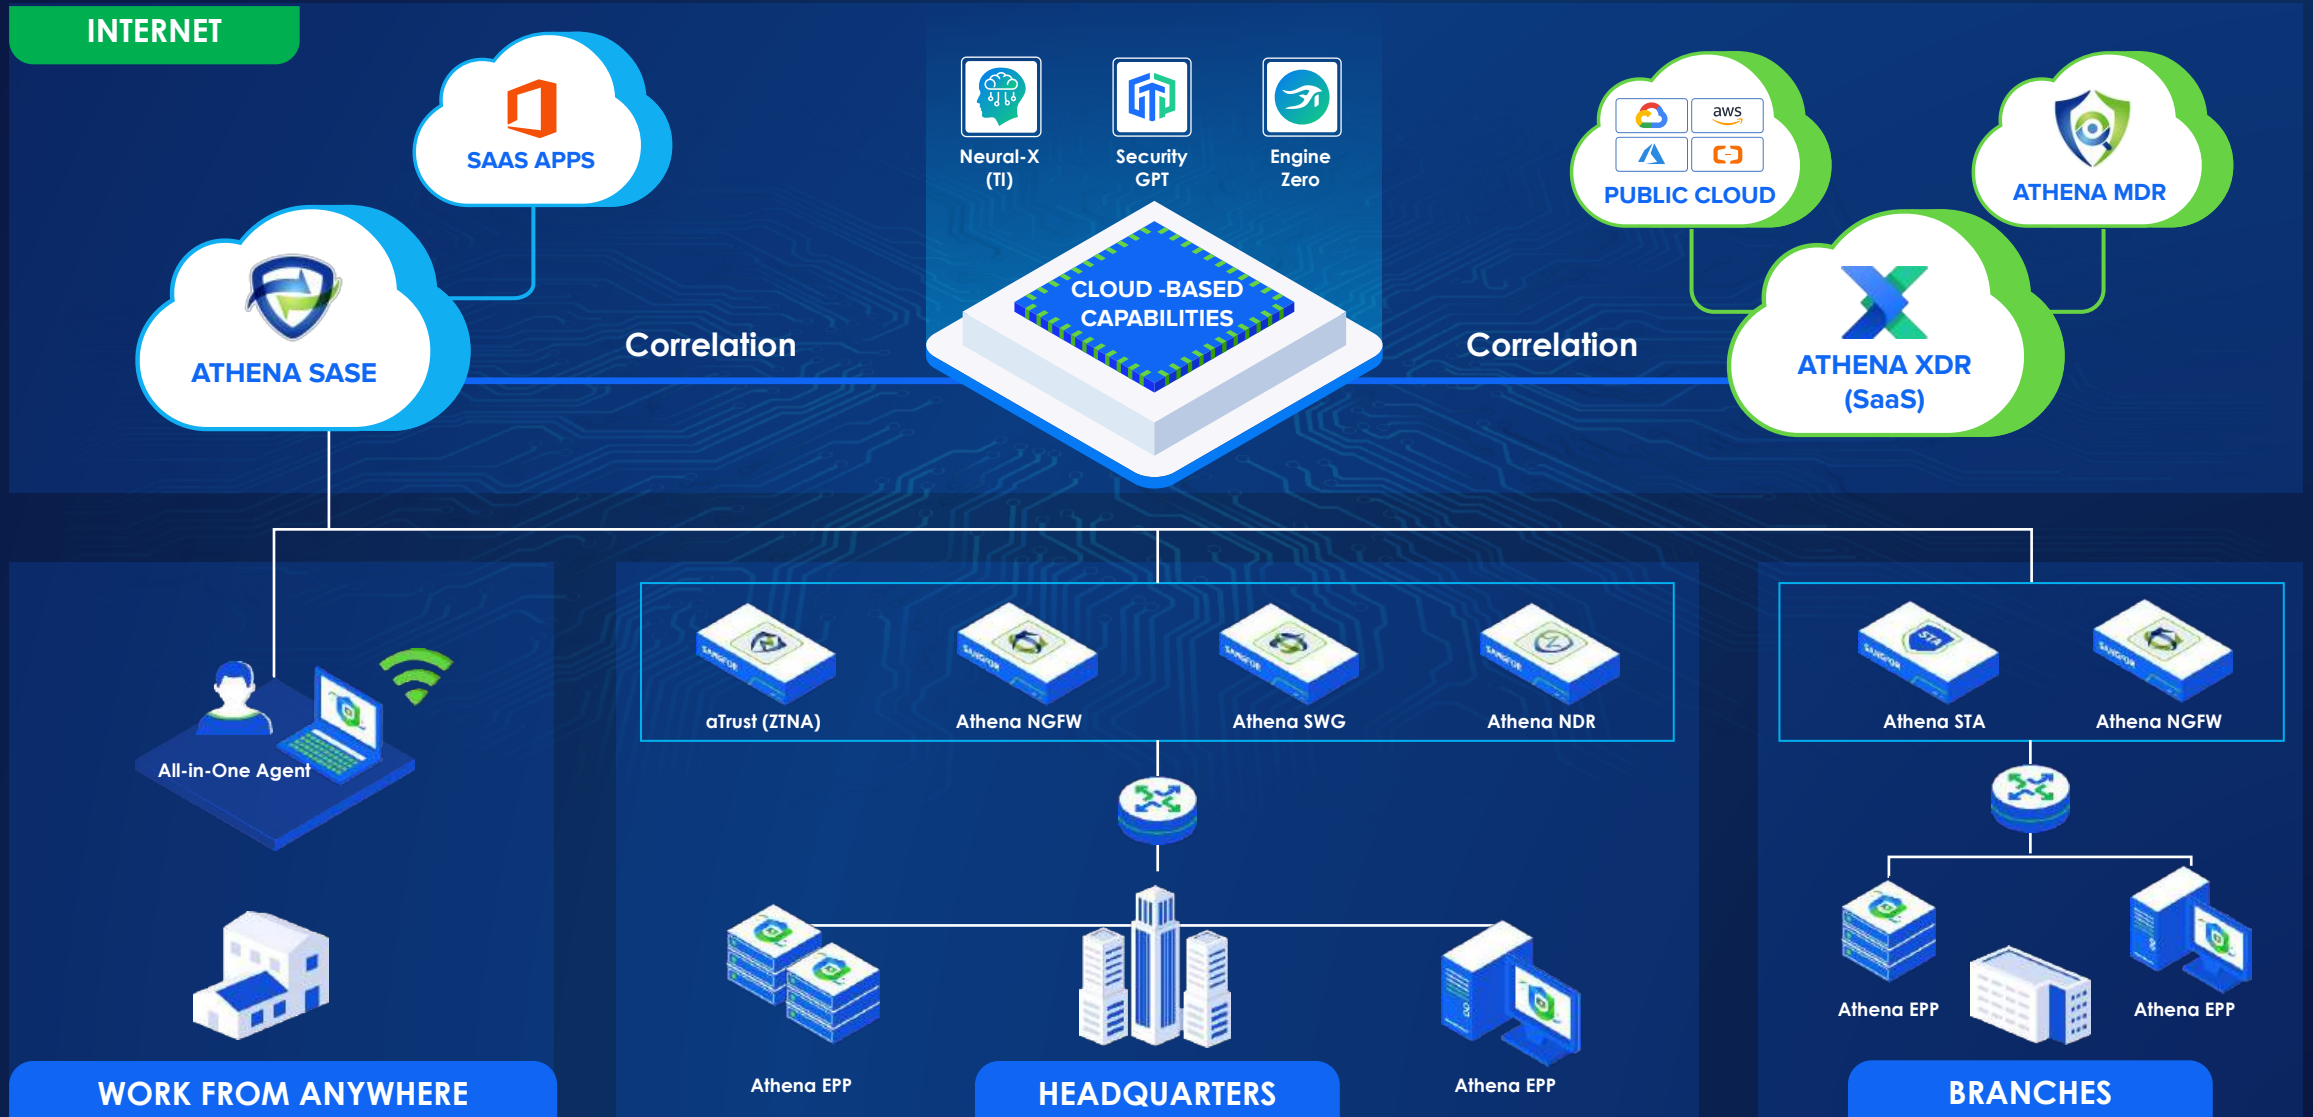

Anti-Ransomware
Kill Ransomware in 3 Seconds

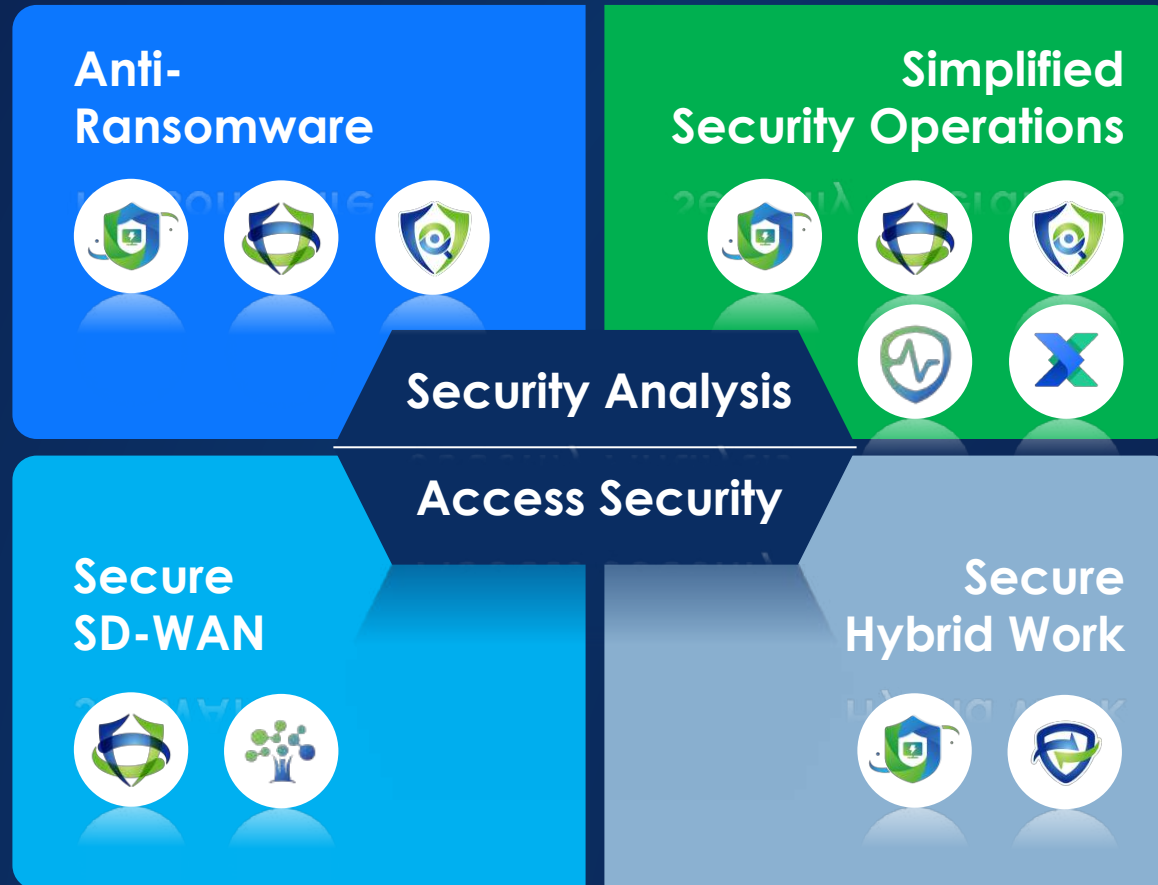

Secure SD-WAN
Build a Secure and Efficient Enterprise Network

Secure Hybrid Work
Simplify Access. Strengthen Security. Power Hybrid Work.

Component Products and Services

Athena EPP

Athena NGFW

Athena MDR (IR)

Highlights

Block Ransomware within 3 Seconds

AI-Driven Ransomware Detection

Intuitive Security
Visualization

Dynamic Backup & One-Click Recovery

Ransomware Lifecycle Protection

Component Products and Services

Athena EPP

Athena NGFW

Athena MDR

Athena STA

Athena XDR

Highlights

Consolidated Security Infrastructure

Credible and Reliable Security Assurance

Streamlined Security Alert Analysis

Bringing Security Alive with GenAI

Component Products and Services

Athena NGFW

BBC
(Central Management)

Highlights

Integrated Security (Athena EPP, APT Prevention, Malware Inspection, IPS, WAF)

Centralized Policy & Report Mgmt.

Hybrid Secure Connectivity Load Balancing

Optimal Network Performance

Component Products and Services

Athena EPP

Athena SASE

Highlights

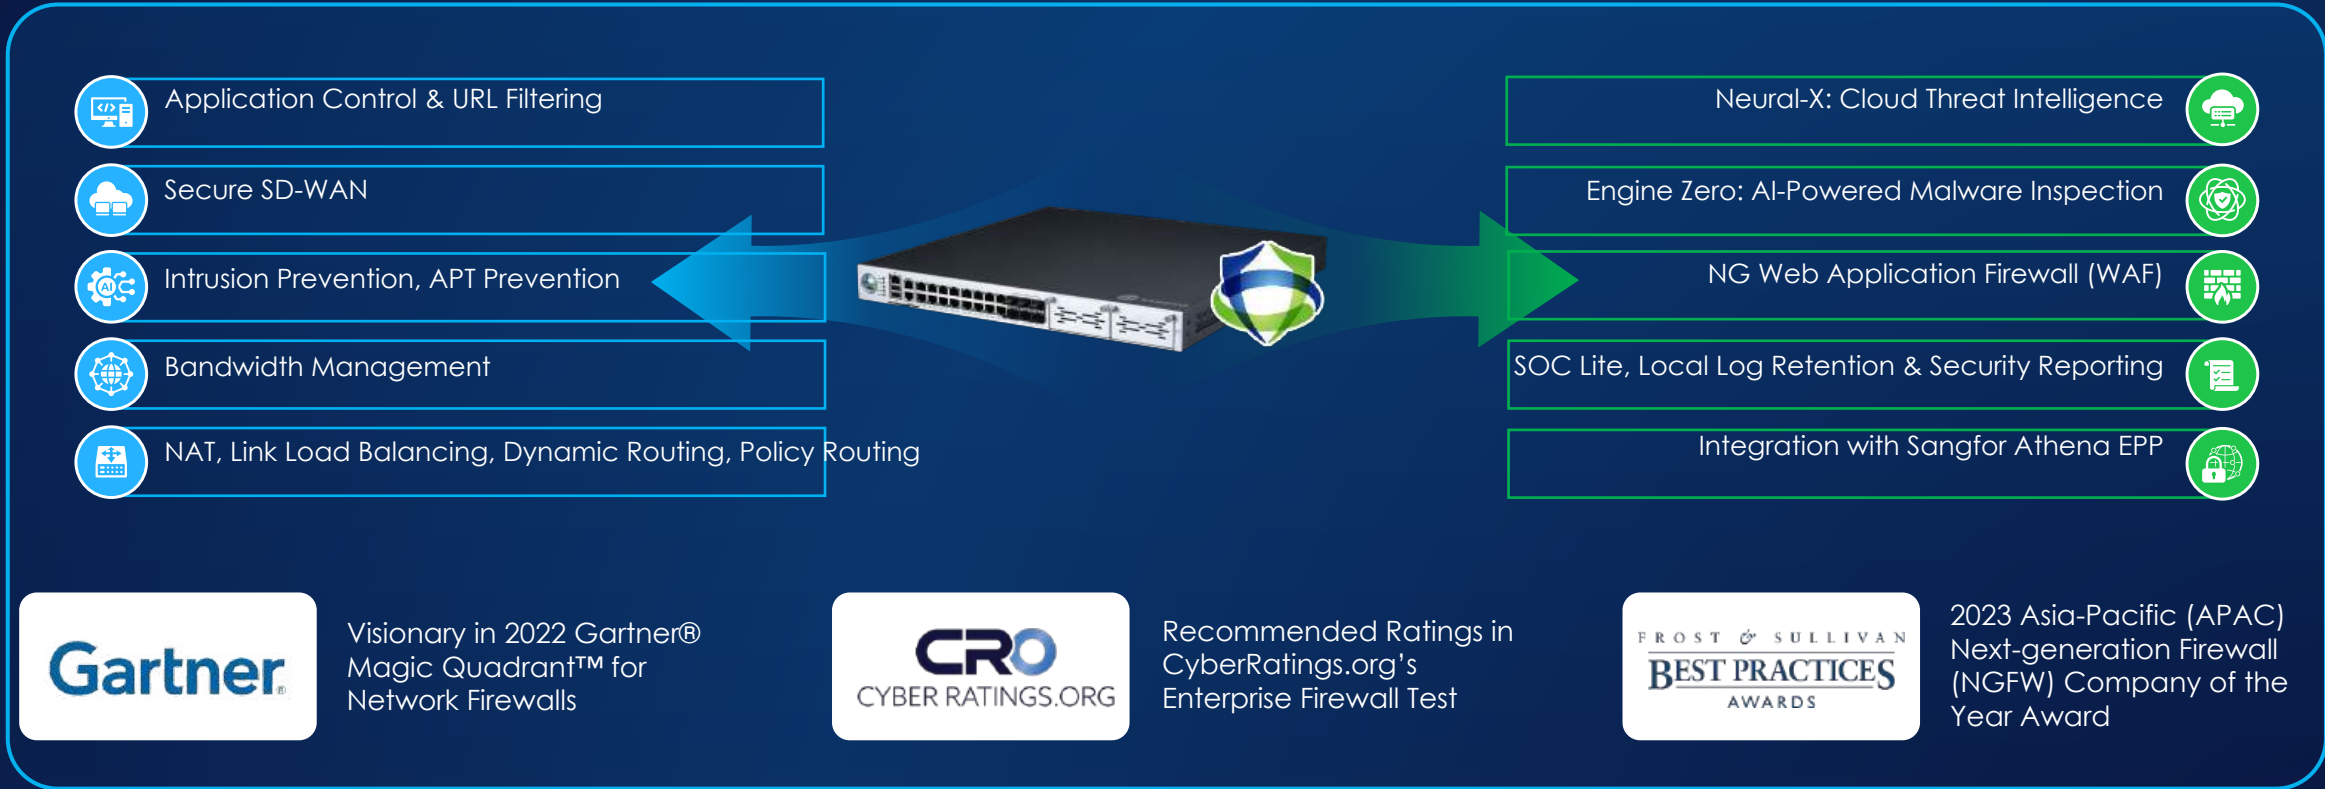

Streamlined User Experience with ZTNA

Enhanced Visibility & Control

Secure Access from Anywhere

Risk-Adaptive Policy Enforcement

Comprehensive and Reliable Protection From L2 to L7

Sangfor Athena EPP

The Future of Endpoint Security

"TOP PRODUCT" award for the best Windows antivirus software for business users (2023)

 Sangfor Athena EPP	<ul style="list-style-type: none"> • Real-time scanning 	<ul style="list-style-type: none"> • File quarantine and deletion 	<ul style="list-style-type: none"> • Vulnerability management

Full-Featured Secure Web Gateway for Powerful Internet Access and User Management

• **SWG Replacement**

• Endpoint Risk and Asset Management

• Data Security Compliance

• **User and Application Bandwidth Management**

• ICAP Integration with Others

• **Applying Zero Trust to Web Traffic**

• Proxy Avoidance Protection

• **Centralized Authentication**

Top 5 Global NDR Vendor for Two Consecutive Years in Gartner® Market Share Report

Representative Vendor in the Gartner® Market Guide for Network Detection and Response (NDR)

Threat Detection

- Real-time monitoring and analysis of all network traffic, security events, user logins, etc.
- AI-powered detection, User and Entity Behavior Analytics, and global threat intelligence
- Full coverage of MITRE ATT&CK tactics and techniques

Threat Hunting

- Actively hunt for known and unknown threats, including ransomware, cryptomining, APTs
- 100% visibility of the attack chain, uncovering the hacker's point of entry and attack path
- Analyzes the impact and collects indicators of compromise (IOCs) and digital evidence

Threat Response

- Immediate investigation, incident analysis, forensics insights, ongoing reports
- Coordinates with network and endpoint security tools and provides remediation plans

Reduce Risk of Attacks
Identify 99% of threats within 5 minutes

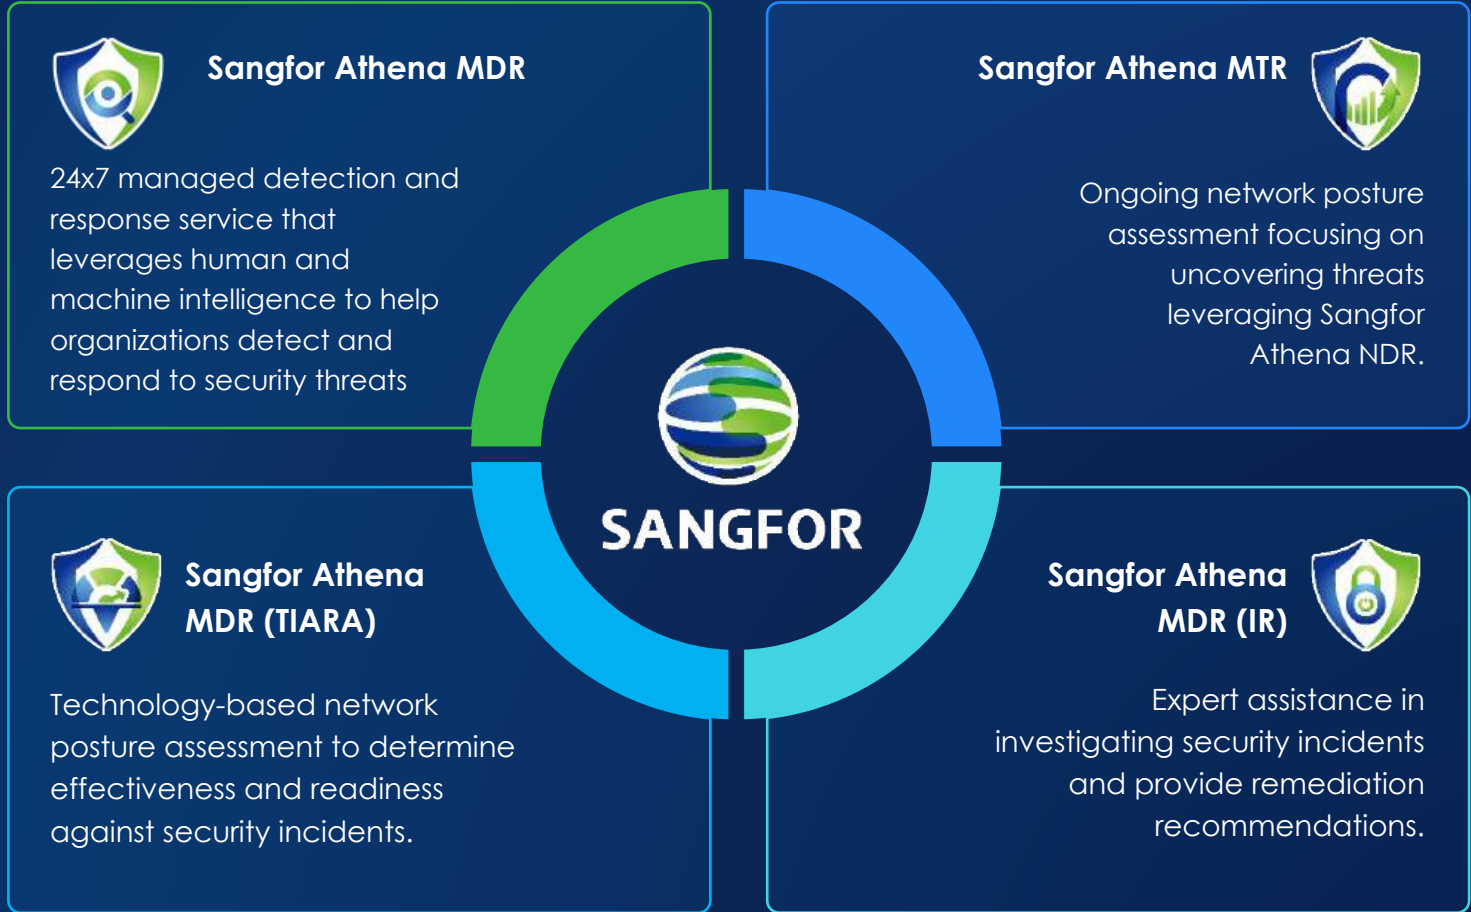

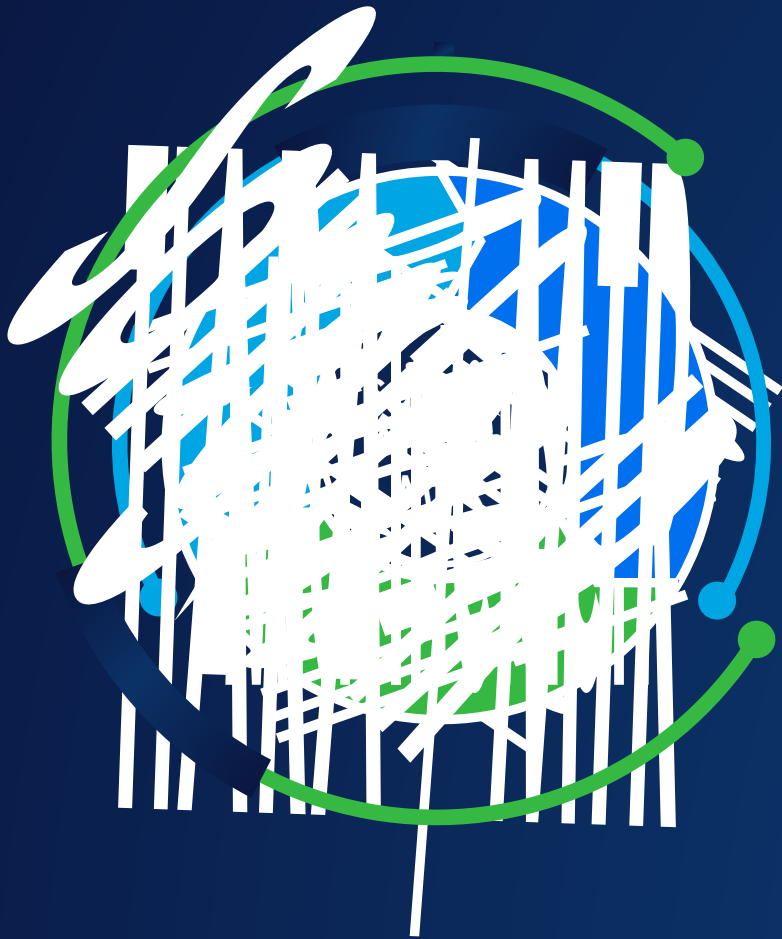

Increase SecOps Efficiency
Cut false positive alerts by 90% by integrating and correlating multiple data sources

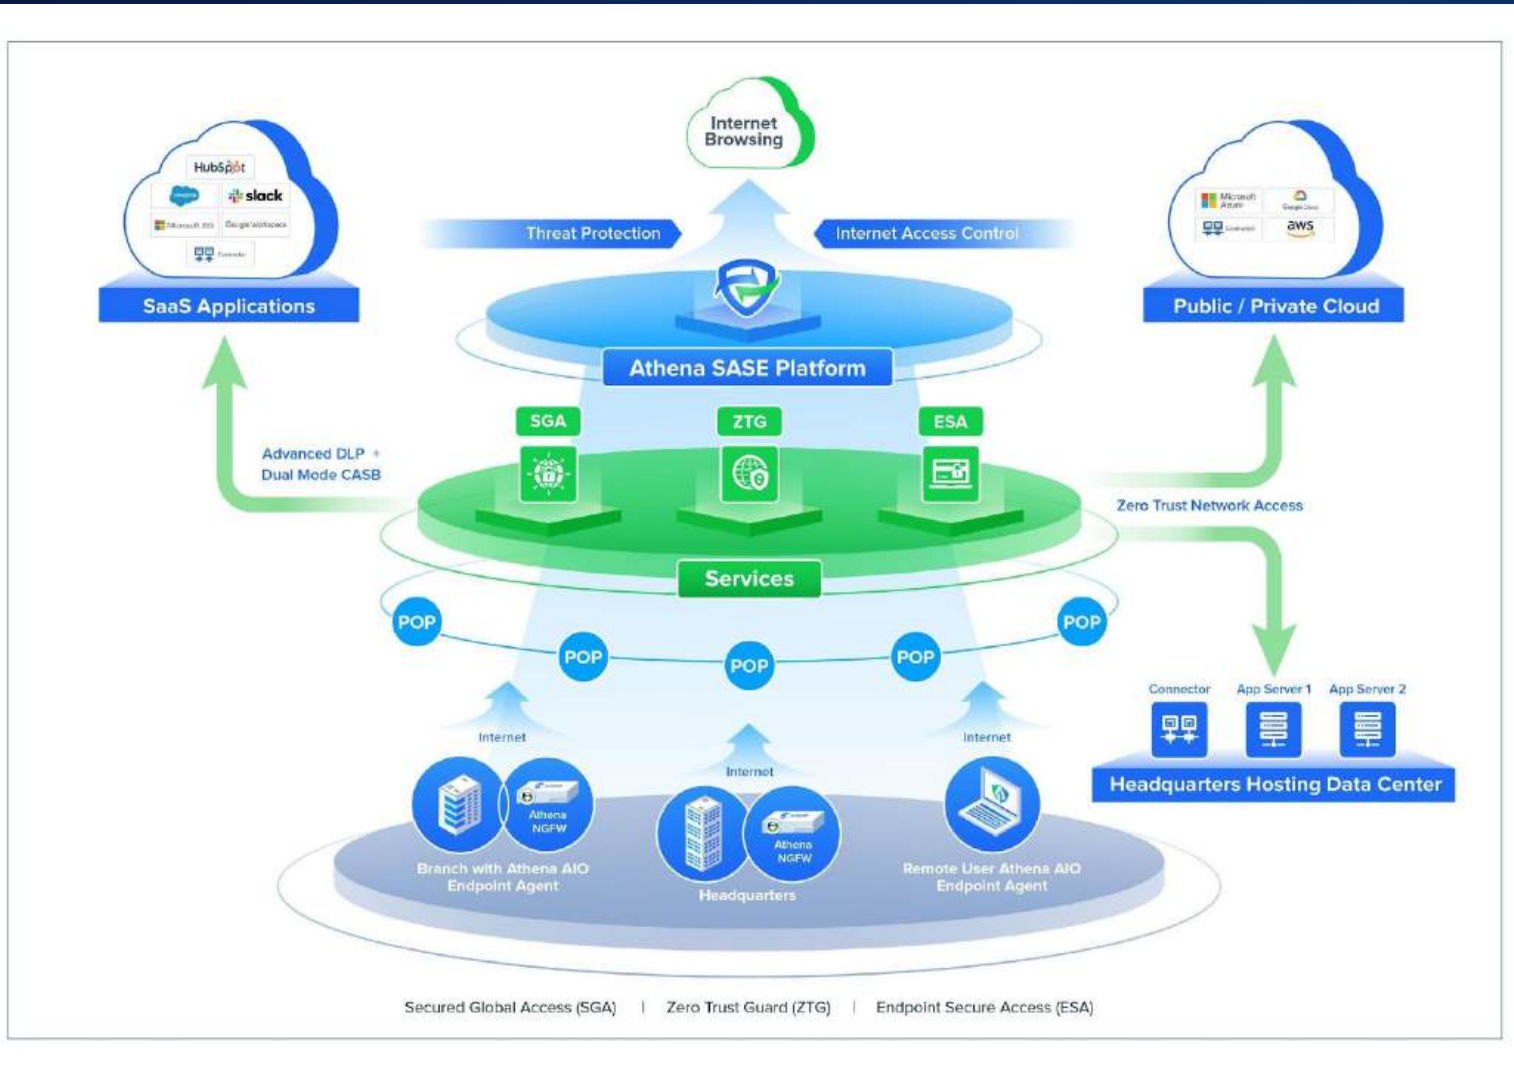

Actionable & Contextual Insights
100% security alerts/incidents are easy to interpret with Security GPT

Simplify SecOps Workflows
90% reduction in investigation time and automated response with Security GPT

The Smarter, Simpler, and More Secure Way to Connect

AI-powered Threat Prevention:

Integrates with ZTNA, delivering real-time protection and secure access by blocking threats before they infiltrate

Unparalleled Network & User Visibility:

Comprehensive insights for informed, strategic decision-making.

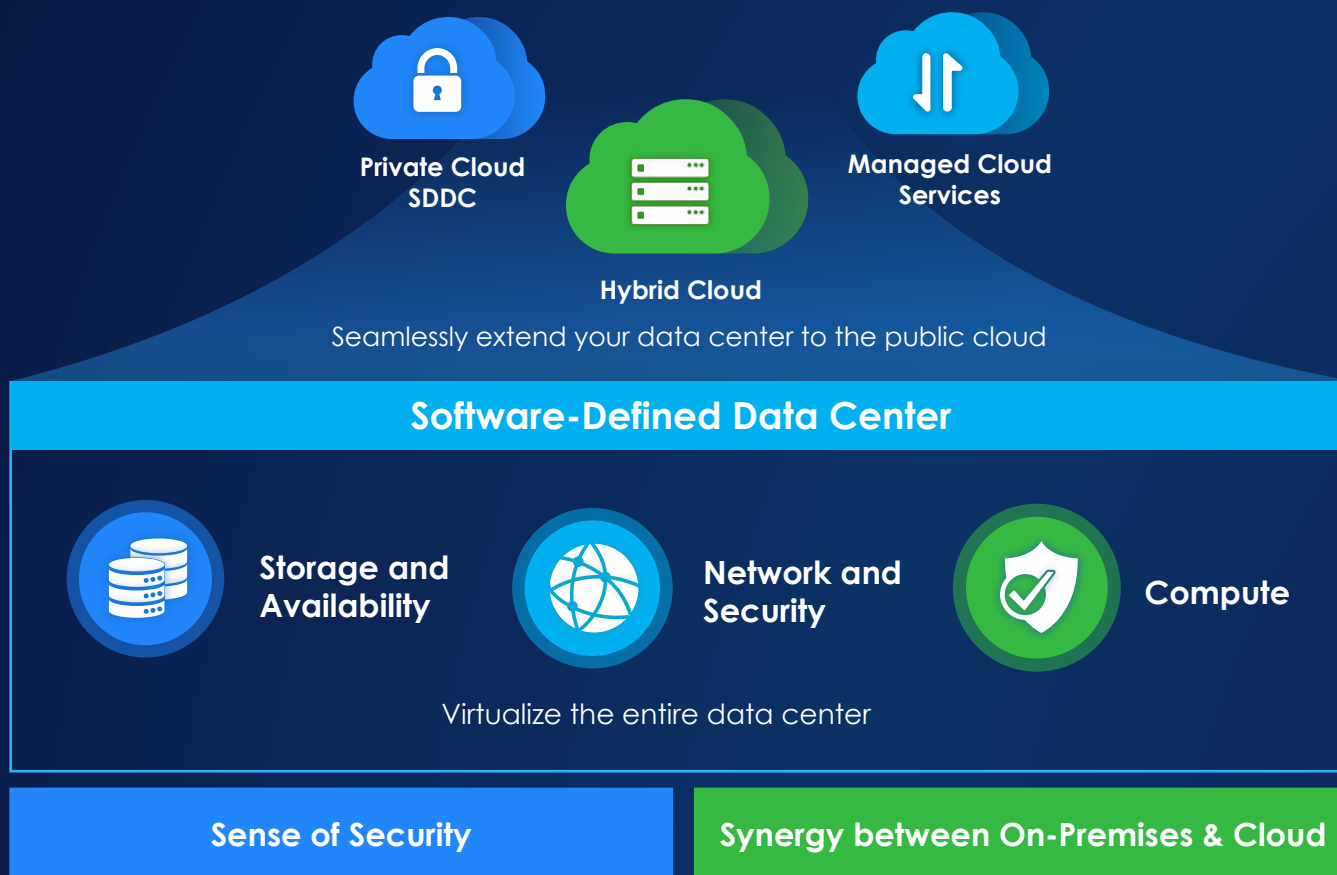

Cloud Native Hyperscale Architecture:

Adaptability and scalability for evolving business needs.

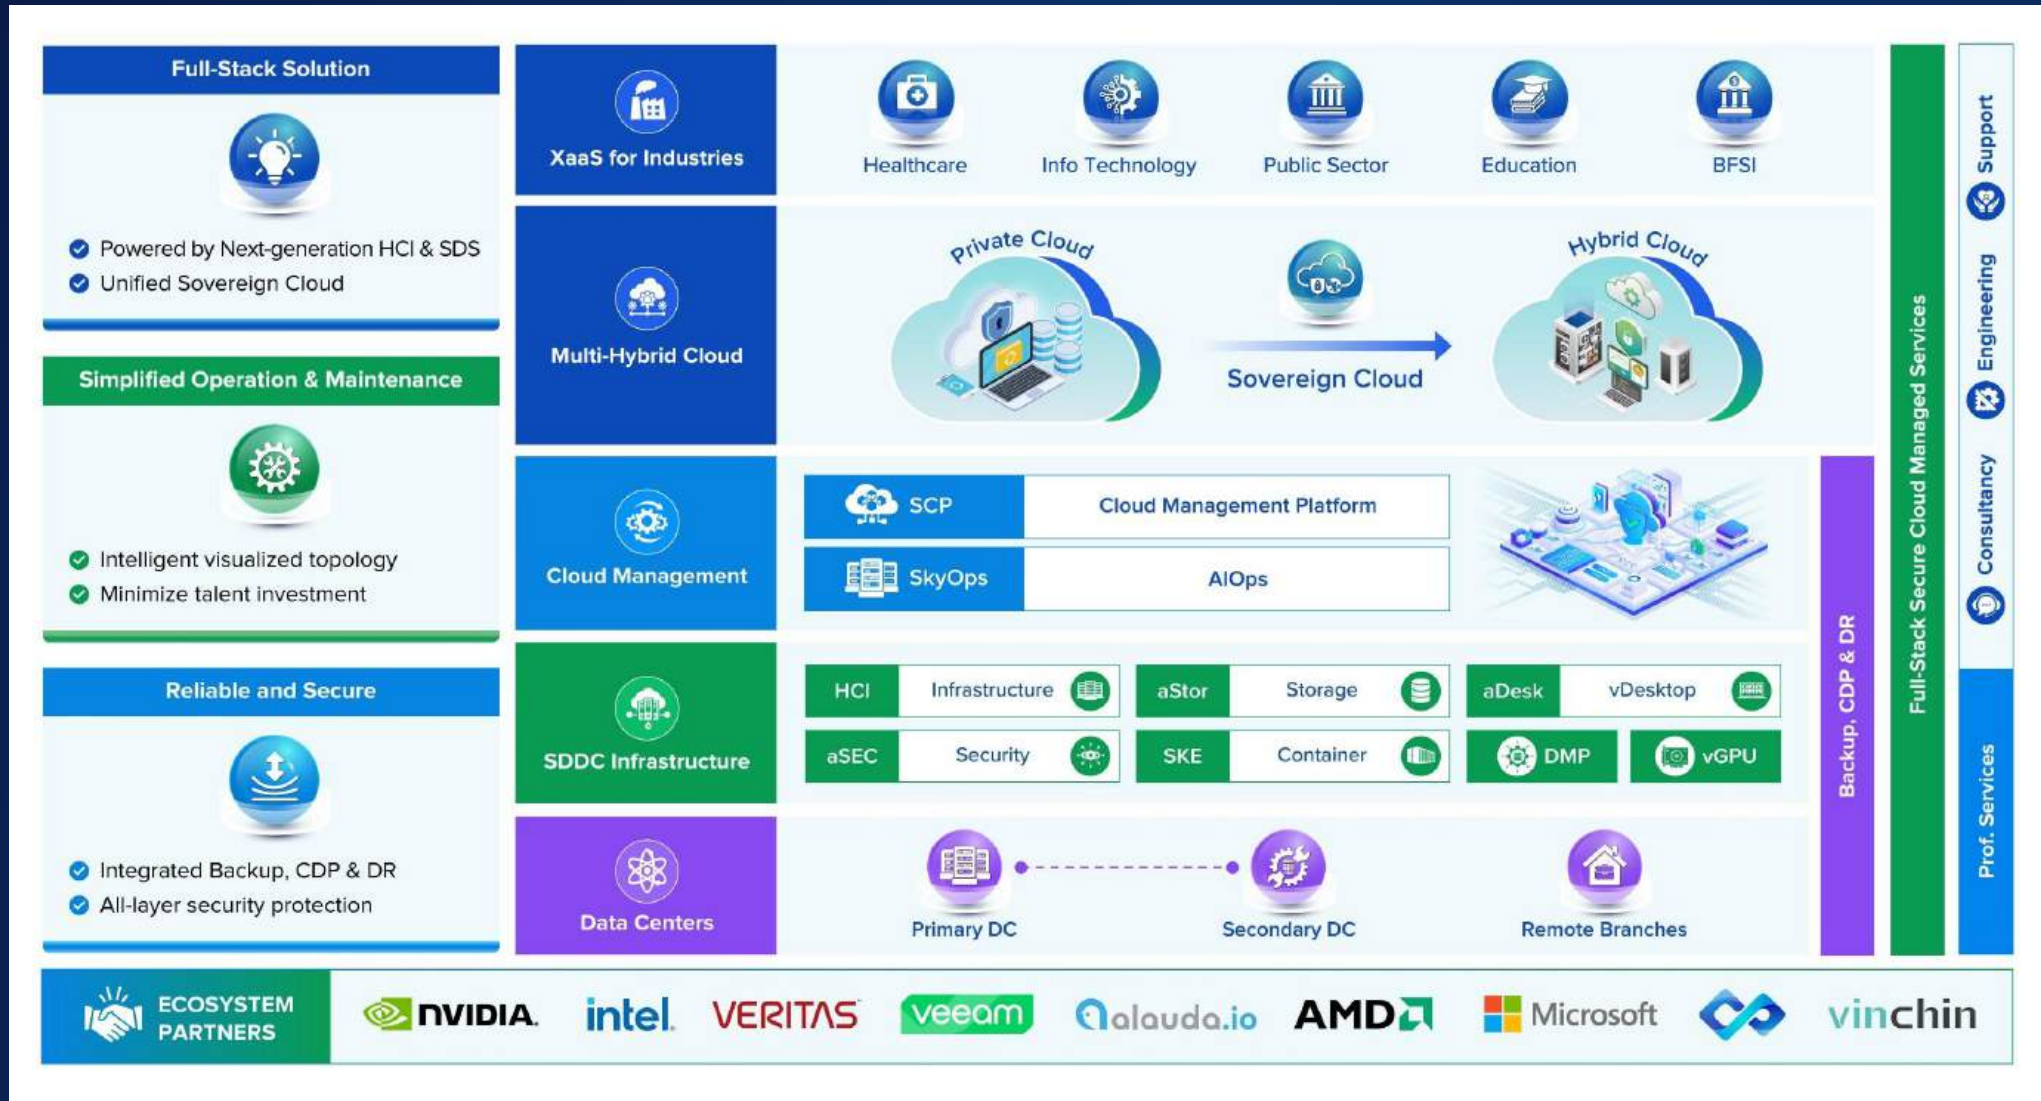

Simplified Central Management:

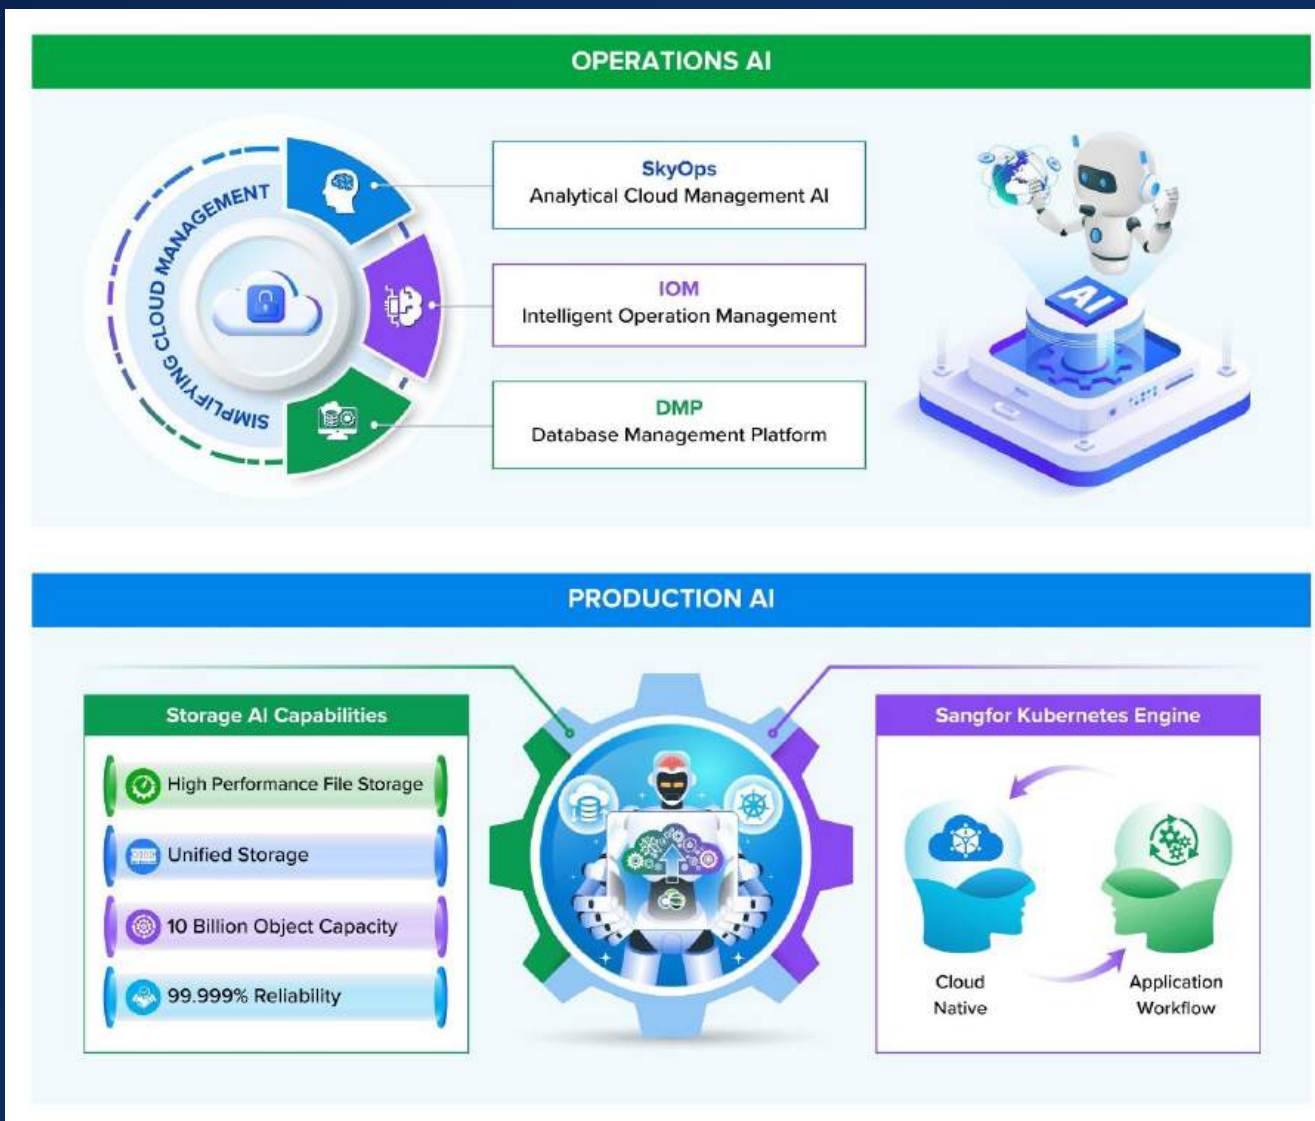

Efficient, centralized control streamlines operations.

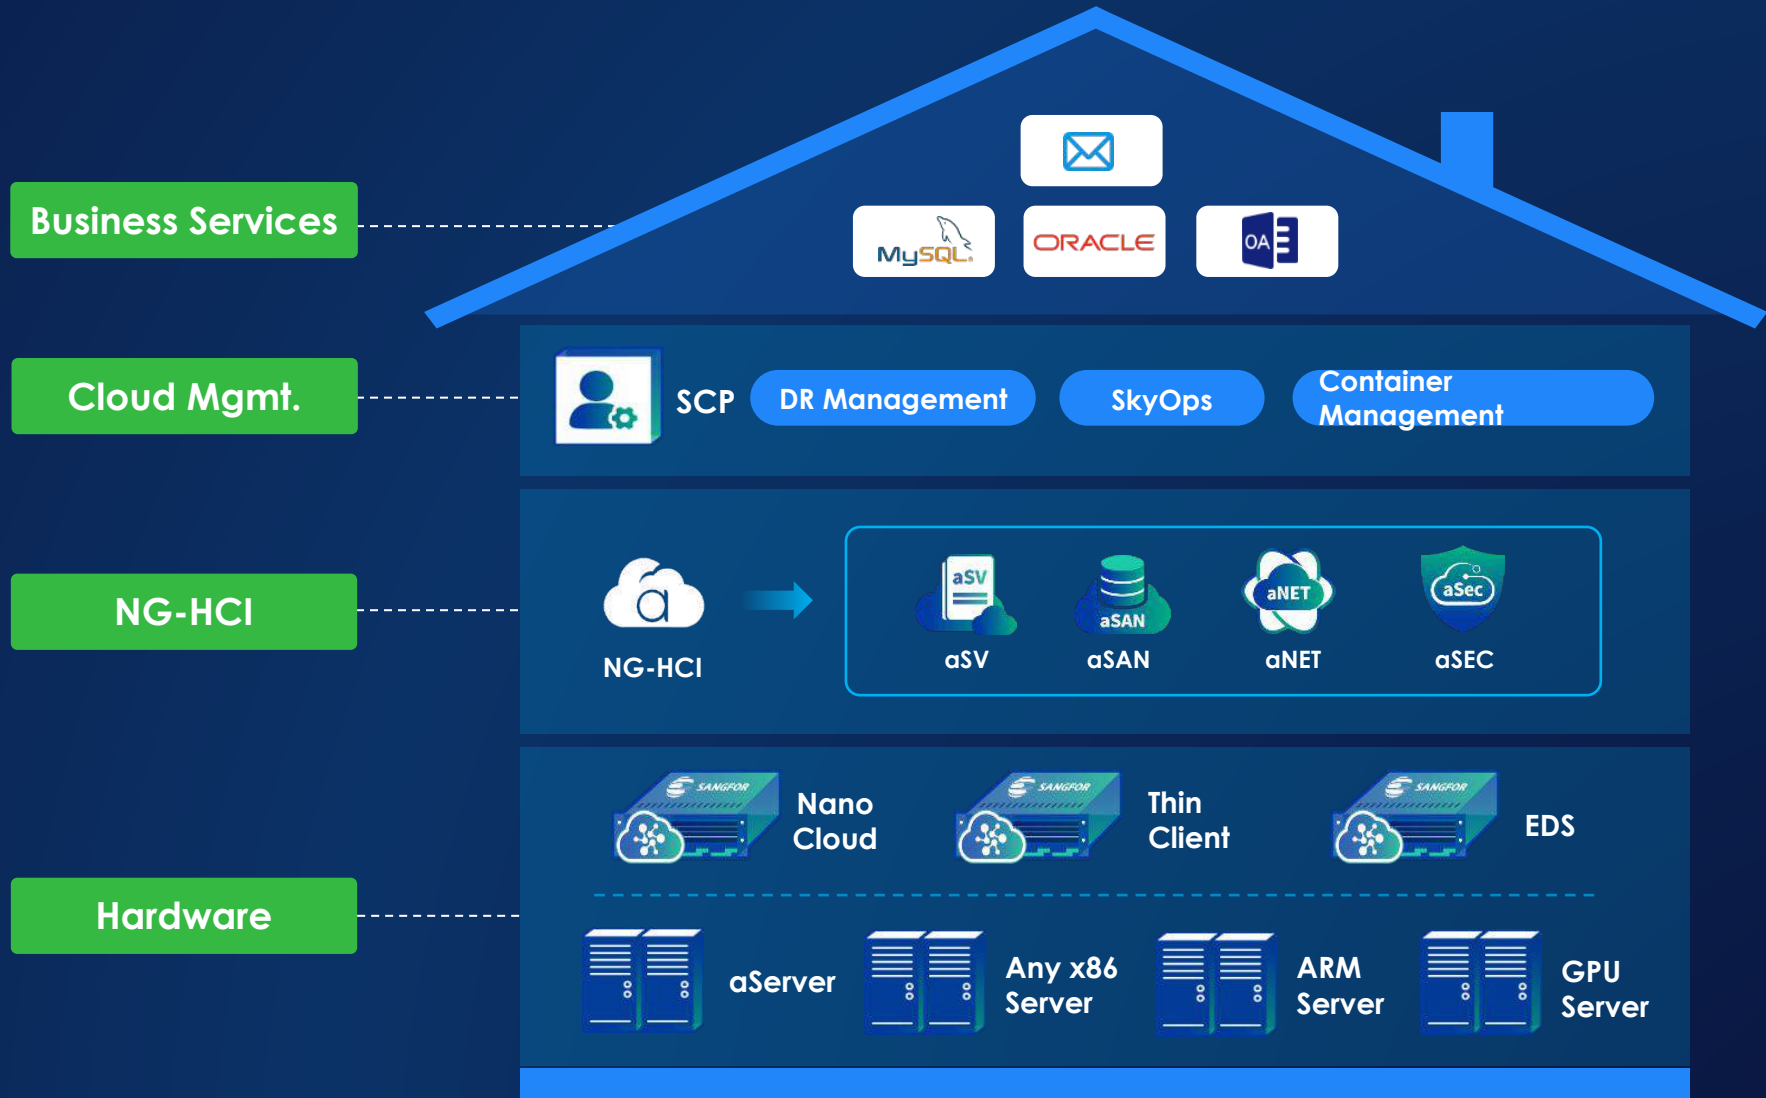

-  **Hybrid Work loads: Cloud service extends to on-premise On-prem data center extends to cloud**
-  **DR: One-click two-way migration for DR**
-  **Flexible resource and performance expansion**
-  **Service Synergy SkyOps intelligent O&M across cloud and on-prem**

Hybrid Cloud Solution

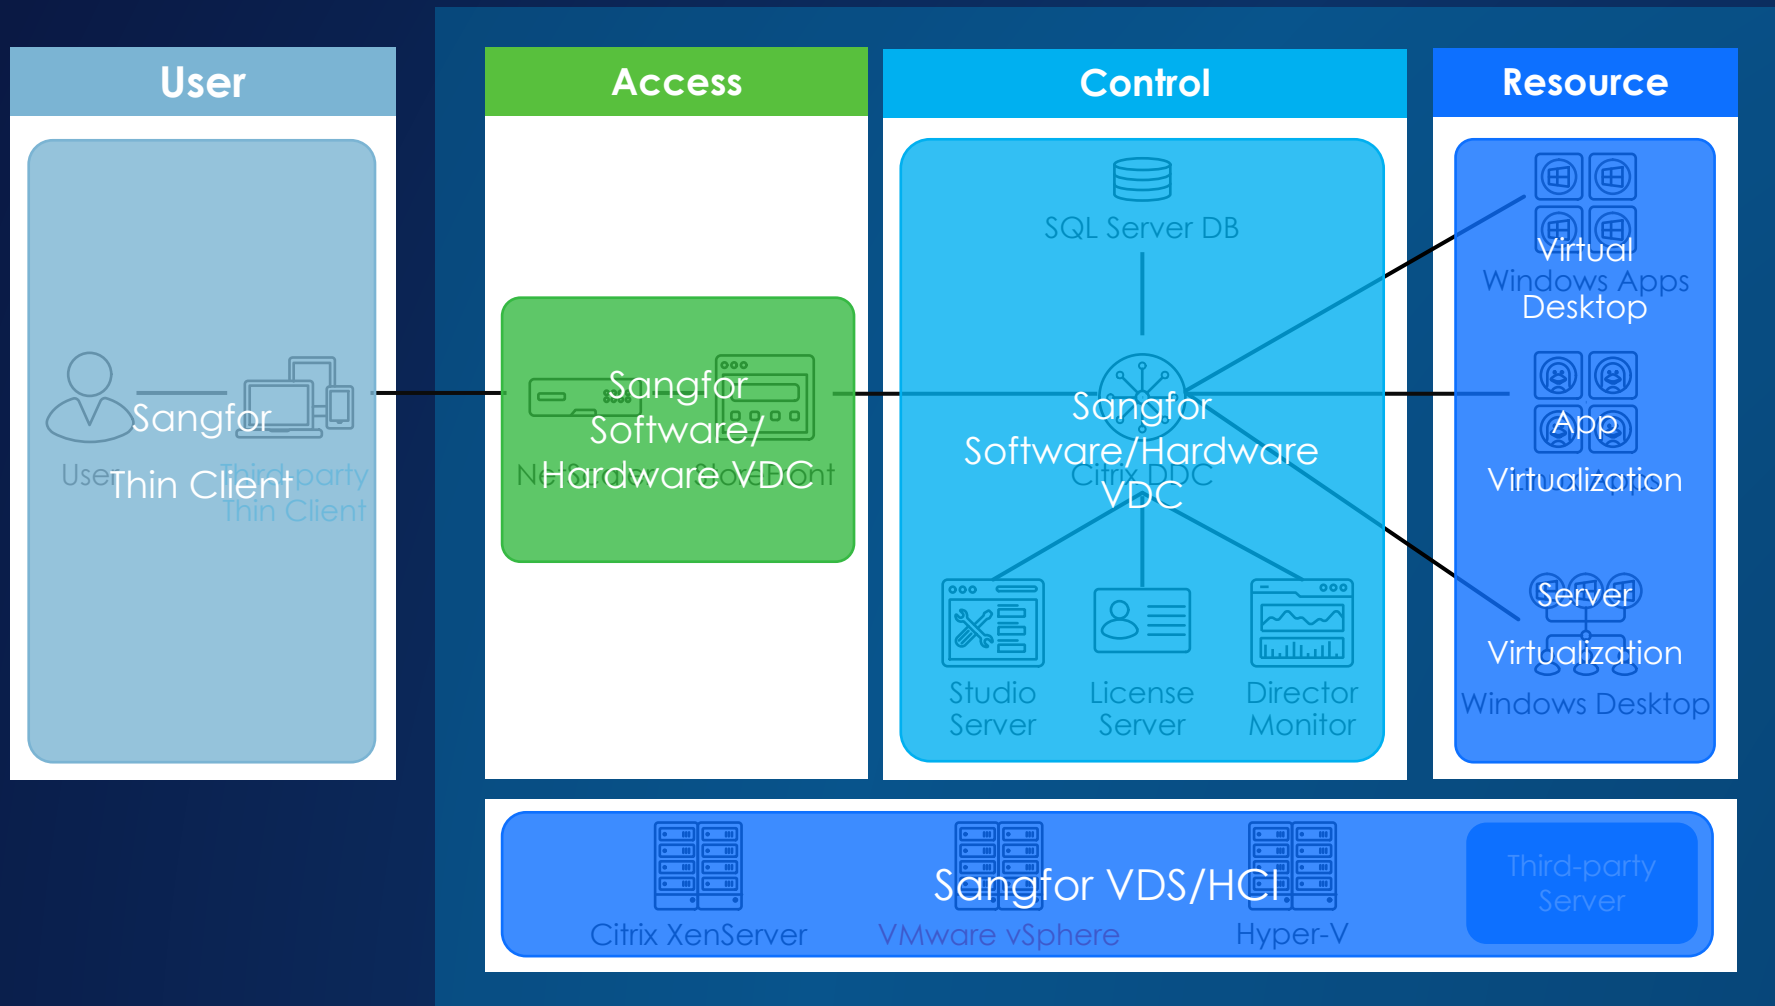

Sangfor aDesk (VDI)

A One-Stop Secure Digital Workspace Solution

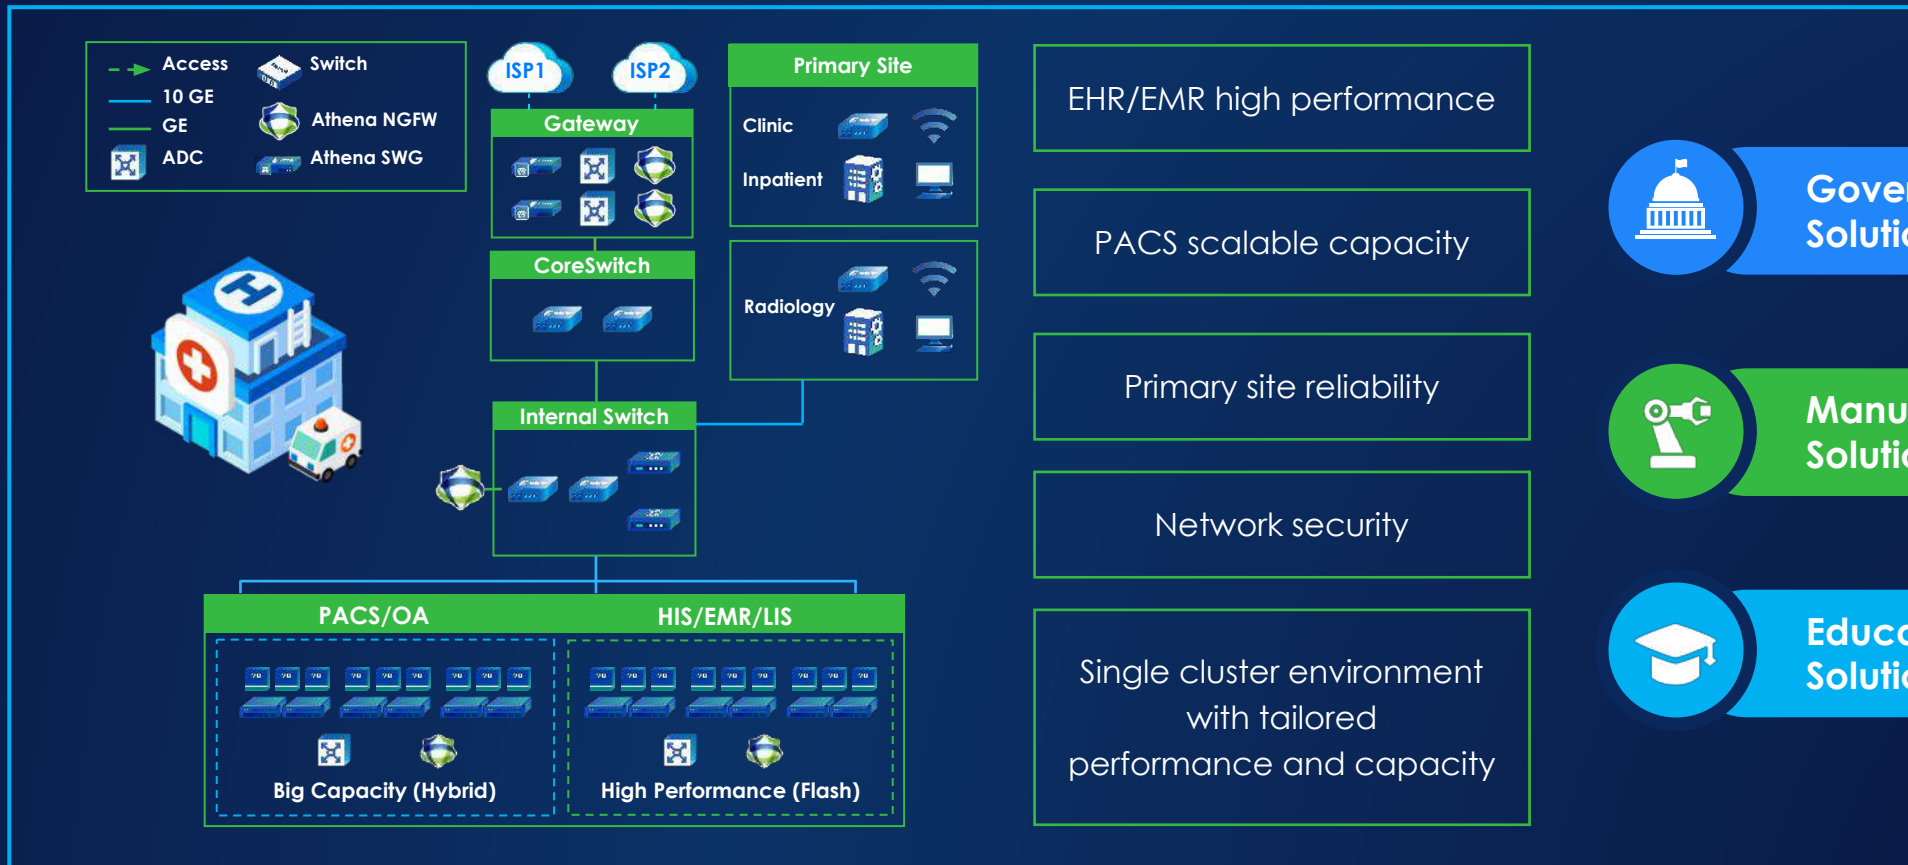

Sangfor aDesk (VDI)

- ✓ Robust Security
- ✓ Unified Management
- ✓ Seamless Experience

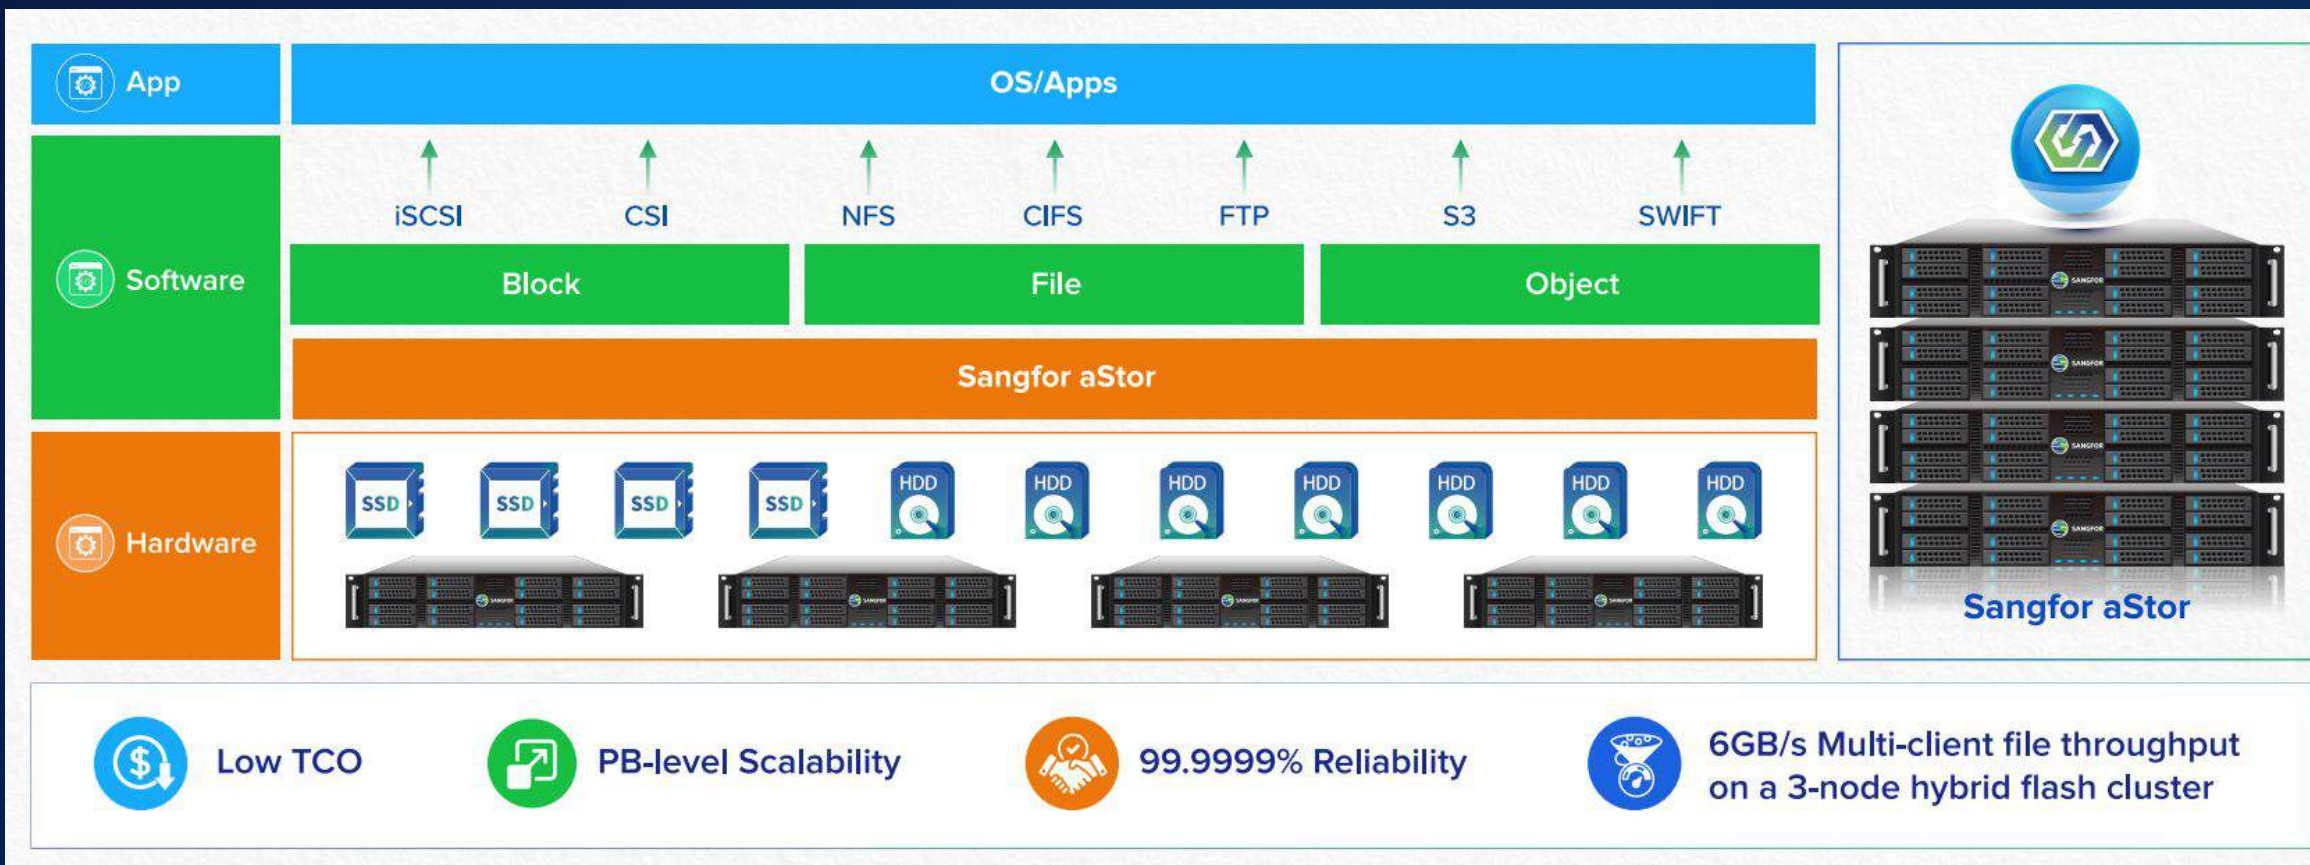

Delivering Tailored Industry Solutions

- More professional on the customer side — Trusted
- Industry solutions based on best practices — Value-Added

Sangfor aStor (SDS)

Storage Built for the Digital Age

 Low TCO

 PB-level Scalability

 99.9999% Reliability

 6GB/s Multi-client file throughput on a 3-node hybrid flash cluster

 Low TCO

 PB-level Scalability

 99.9999% Reliability

 6GB/s Multi-client file throughput on a 3-node hybrid flash cluster

Full Lifecycle Service: Fast, Professional, Worry-Free

Sangfor Full Lifecycle Service

- Security consulting
- Cloud transformation consulting
- Security risk assessment
- Solution design
- Best practices for use cases and industries

- Migration and replacement
- Managed cloud services
- Managed security D&R
- On-site principal support

- Policy or performance optimization
- Incident response and fast recovery
- Fast troubleshooting and upgrading
- Cloud monitoring & fault prediction
- Automated response and workflows

Dedicated Support

- Tailored service plan across lifecycle
- Technical account manager
- Local warehouse with rapid delivery

Local Support

- Local technical team
- Local certified partner ecosystem
- Global support center from EMEA to APAC
- English or local language communication

Thank You
